Liberty Cycler and Disposables

Liberty Select cycler
Product #
180343

Description
This cycler fills and drains using dynamic pumping technology and features a touchscreen user interface. Liberty Select is the latest software upgrade with additional features for more convenience, comfort and control.

Liberty cycler cart

Product #
180080

Description
Portable cart with safety lock wheels to hold the cycler and supplies; hooks for solution bags on sides. Liberty Cycler Cart Assembly Procedure Card included (480014); may be ordered separately.

Liberty Cycler Cart Assembly Procedure Card

Product #
480014

Liberty cycler carrying case

Product #
365070-09

Description
Carrying case used for cycler transport during travel. Case will need to be checked with airline luggage.

Liberty Cycler and Disposables

Liberty cycler set with single stay•safe PIN connector

Product #   **Packaging**
050-87215   10/box

Description
Liberty cycler set with one stay•safe PIN
connector, 10-foot patient line (42 mL),
and 31-inch drain line.

**Liberty cycler set with dual
stay•safe PIN connector**

Product #   **Packaging**
050-87212   10/box

Description
Liberty cycler set with two stay•safe PIN
connectors, 10-foot patient line (42 mL),
and 31-inch drain line.

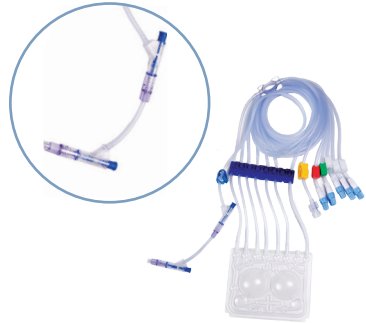

Liberty cycler integrated set

Product #   **Packaging**
050-87216   10/box

Description
Liberty cycler set with one stay•safe PIN
connector, 20-foot patient line (84 mL),
and 20-foot drain line.

Liberty Cycler and Disposables

Liberty cycler drain line

Product #	**Packaging**
026-20036A	30/box

Description

Twenty-foot drain line used to extend Liberty cycler set drain segment. Single use only.

Liberty cycler drain set

Product #	**Packaging**
026-20226	10/box

Description

Liberty drain set includes four 5L drain collection bags. Drain bags feature sample ports and may be Snap™ disconnected; bags frosted on one side and clear on the other to enhance visualization.

Multiple Tubing Segment (MTS) set with stay•safe PIN connectors

Product #	**Packaging**
050-50758	10/box

Description

Placed during setup to make additional aseptic connections to the cycler set when prescribed or when an interruption in treatment is necessary.

Liberty Cycler and Disposables

stay•safe drain set

Product #
026-20030

Packaging
10/box

Description
Drain set connects directly to stay•safe catheter extension set to enable drain as needed and/or effluent sampling.

PD Catheter Extension Sets and Supplies

stay•safe catheter extension set with Safe-Lock®, 12-inch

Product #	Packaging
050-95001	each

Description

Catheter extension set used to connect Safe-Lock catheter adapter (Co-Pack II or training tummy) to systems with stay•safe PIN connectors.

---

stay•safe catheter extension set with Luer-Lock, 6-inch

Product #	Packaging
050-95013	each

stay•safe catheter extension set with Luer-Lock, 12-inch

Product #	Packaging
050-95004	each

stay•safe catheter extension set with Luer-Lock, 18-inch

Product #	Packaging
050-95005	each

Description

Catheter extension sets used to connect Luer-Lock catheter adapter (Quinton or titanium) to systems with stay•safe PIN connectors.

PD Catheter Extension Sets and Supplies

stay•safe cap

Product #	Packaging
050-95012	40/box

Description
Protective sterile cap for stay•safe catheter extension sets.

PD Catheter Adapters and Catheter Supplies

Safe-Lock catheter adapter Co-Pack II

Product # | **Packaging**
050-75000 | each

Description
Catheter adapter compatible with extension sets with Safe-Lock connection at proximal (catheter) end (050-95001).

Safe-Lock catheter adapter sealing cap

Product # | **Packaging**
050-30024 | each

Description
Protective cap for Safe-Lock catheter adapter.

Quinton Luer-Lock catheter adapter

Product # | **Packaging**
30-0661-6 | 25/box

Description
Catheter adapter compatible with extension sets with Luer-Lock connection at proximal (catheter) end, including:
• 050-95004, 050-95005, 050-95013, 050-30024
• Other transfer sets

PD Catheter Adapters and Catheter Supplies

PD catheter repair kit

Product #   **Packaging**
30-2100-3   each

Description
Used to lengthen or repair external portion of PD catheter.

Glue for PD catheter repair kit

Product #   **Packaging**
30-8070-2   each

Description
For use with PD catheter repair kit.

Adult trocar tray with Y-set

Product #   **Packaging**
42-4906-0   each

Description
Temporary single-use PD catheter and insertion kit with trocar and Y-set PD administration set.

PD Convertible Adapters

stay•safe Luer-Lock adapter, 4-inch

Product #	**Packaging**
050-95003	each

Description

Connects stay•safe catheter extension set to other transfer sets.

Universal connector

Product #	**Packaging**
050-30026	each

Description

Connects Safe-Lock catheter adapter or Safe-Lock catheter extension set with other transfer sets; can also be used to connect to Luer-Lock syringe or IV tubing.

APD Luer-Lock adapter

Product #	**Packaging**
050-95018	30/box

Description

Connects an APD cycler set with a Safe-Lock connector to a PD solution bag with a standard Luer-Lock connector.

stay•safe organizer

Product #   **Packaging**
030-10807   each

Description
Holds stay•safe disc for CAPD therapy
or clip for APD therapy to facilitate connection
and disconnection of stay•safe systems.
Organizer is sold with removable clip inserted.

Clip for APD
organizer

stay•safe organizer holder

Product #   **Packaging**
030-10808   each

Description
Enables user to place the stay•safe organizer
on IV pole.

stay•safe Handi-tool

Product #   **Packaging**
030-10810-1   each

Description
For patients with limited dexterity to assist in
turning the stay•safe CAPD dial, breaking cones,
loosening caps and gripping the catheter extension.
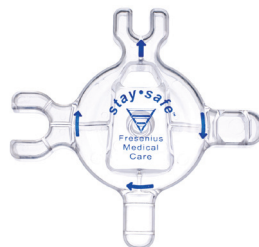

PD Devices - Additional

Super Klip

Product #   **Packaging**
050-63297   each

Description
Adhesive-backed reusable line clip used to
hold drain lines in place during APD therapy.

Ohaus spring scale

Product #   **Packaging**
36-8008-9   each

Description
Gram scale used to weigh solution up to
5000 gm in 100 gm increments (CAPD therapy).

Over-the-door hook

Product #   **Packaging**
050-28255   each

Description
Portable solution bag hook used for
gravity-based CAPD therapy while traveling.

PD Computer Systems and Software

IQdrive

Product
180202

Description
USB drive used with IQsystem® software to program the Liberty cycler and record treatment data.

IQsystem Software CD-ROM

Product
180073

Description
Automated peritoneal dialysis therapy software that enables the user to download cycler programming to a USB drive as well as upload APD therapy results from the Liberty cycler to a USB drive.

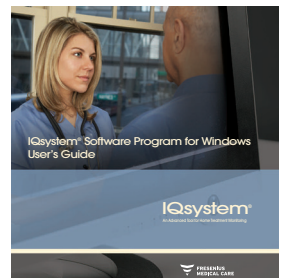

IQsystem User's Guide

Product
470190

Description
Instructions for using the IQsystem software program and peripherals.

PD Computer Systems and Software

Pack-PD™ for Windows

Product #
170313

Description
Peritoneal dialysis kinetic modeling software program.

Pack-PD for Windows Operator's Manual

Product #
470217

Description
Provides users with instructions for using Pack-PD
Windows based software for peritoneal dialysis
kinetic modeling.

2008K@home hemodialysis (HD) machine

Product
190828

Description
Hemodialysis machine with user-friendly control panel and touchscreen. On-screen tutorial guides user through setup, treatment, disconnection, and disinfection procedures.

*Shown with optional WetAlert wireless wetness detector

2008K@home hemodialysis machine with bi*b*ag® system

Product
190904

Description
Hemodialysis machine with bi*b*ag system, user-friendly control panel and touchscreen. On-screen tutorial guides user through setup, treatment, disconnection, and disinfection procedure. Conveniently allows user to use bi*b*ag online bicarbonate system for bicarbonate delivery method.

*Shown with optional WetAlert wireless wetness detector

Dialysate sample port

Product
5008203

Description
A fluid sample port added to the incoming dialysate line.

Home Hemodialysis Equipment and Supplies

2008K@home Machine User's Guide

Product #
490180 (printed copy)

Description
Provides operating instructions, as well as alarm and troubleshooting information, for the 2008K@home HD machine.
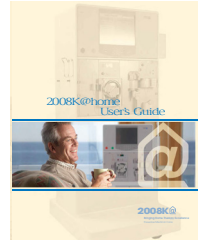

2008K@home Machine with bi*b*ag System User's Guide

Product #
508340 (printed copy)

Description
Provides operating instructions and troubleshooting information for the 2008K@home machine with bi*b*ag system.

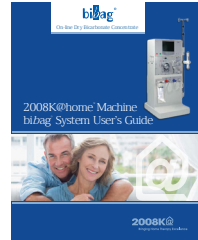

2008K@home Machine Train-the-Trainer Manual

Product #
490167

Description
Training manual used to train the home hemodialysis training nurse; includes comprehensive training outline and checklist.
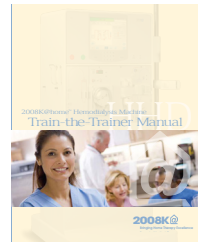

Power Failure During Dialysis Manually Returning the Blood Procedure

Product
490172

Description
Laminated procedure guide for manually returning the blood in the event of a power failure. Pre-attached ring designed to hang on IV pole for quick reference.

WetAlert wireless wetness detector starter kit

Product #	Packaging
190893	each

Description
The WetAlert wireless wetness detector starter kit contains:
- A WetAlert receiver antenna bracket (P/N 190882)
- WetAlert detector initial setup instructions (P/N 508706)
- A wireless wetness transmitter module (P/N 190507) with accompanying label (P/N 490155)
- One each of the WetAlert Wireless Wetness Detector In-Center User's Guide (P/N 490181) and 2008K@home WetAlert Wireless Wetness Detector Home User's Guide (P/N 507939).

This kit should be ordered for all new machine purchases and any machines with the serial number 3K0S 184864 or higher.*

*If you have any questions about which kit to order, call our Customer and Technical Services team at 800-662-1237.

Home Hemodialysis Equipment and Supplies

WetAlert wireless wetness detector retrofit kit

Product # | **Packaging**
190442 | each

Description

This kit contains a WetAlert wireless wetness detector starter kit (P/N 190893), along with the following additional components to upgrade existing 2008K@home machines:

- A WetAlert dual receiver board with software (P/N 190829-1)
- A WetAlert EEPROM kit (P/N 190640)
- Associated components needed for hardware installation (2 each of P/N 330614-15-01, 330614-15-02, 338005-06, and 330602-14, as well as 1 each of 190506), and
- 2008K@home wireless receiver installation instructions (P/N 507943).*

WetAlert wireless wetness transmitter module

Product # | **Packaging**
190988 | each

Description

The WetAlert wireless transmitter module contains a home user's guide and replacement transmitter module and can be ordered by patients or their healthcare provider. The module is designed to last for six months.

DIASAFE® Plus filter

Product # | **Packaging**
5008203 | 10/case

Description

Replaceable dialysate purification filter integrated into the 2008K@home machine.

*If you have any questions about which kit to order, call our Customer and Technical Services team at 800-662-1237.

Optiflux High Flux Dialyzers

Model	F160NRe	F180NRe	F200NRe
Product #	0500316E	0500318E	0500320E

Packaging
12/case

Description

Optiflux high flux ebeam-sterilized dialyzers have the flexibility to be used in the traditional arterial end upright and also the arterial inverted position.

Specifications

	F160NRe	F180NRe	F200NRe

Membrane - Advanced Fresenius Polysulfone (Optiflux)
Housing – Polycarbonate
Potting Compound – Polyurethane
Clearance data is in vitro with UFR=0mL/min. Data on file.
In vivo performance may differ.
Sodium used as a marker for urea.

*MW 14,300, surrogate for middle molecule clearance measured with lysozyme.

Home Hemodialysis Equipment and Supplies

Millenium HX reverse osmosis system

Product
See the Hemodialysis Product Guide
(P/N 100148-01) for specific configurations.

Description
The Millenium HX (MHX) RO system produces a reliable supply of water for hemodialysis and is compatible with any dialysis machine.

The MHX features an automatic disinfection feature that maintains the system in a clean state with minimal involvement from the patient or provider, has an easy-to-use touchscreen panel and is quiet during operation.

WRO 300 reverse osmosis system

Product
See the Hemodialysis Product Guide (P/N 100148-01) for specific configurations.

Description
The WRO 300 RO system is designed to be used as a single patient unit in conjunction with a single patient dialysis delivery system. It is designed to meet AAMI grade water standards and is ideal for use in the home. This system is portable, compact and easy to operate with a very low noise level and automated procedures, which helps minimize home patient and caregiver involvement. It has programmable automated flushing and a continuous product water loop to eliminate stagnation and ensure system cleanliness.

Home Hemodialysis Equipment and Supplies

WRO 300H reverse osmosis system

Product #
See the Hemodialysis Product Guide (P/N 100148-01)
for specific configurations.

Description
The WRO 300H RO system is designed to be used as a single patient unit in conjunction with a single patient dialysis delivery system. It is designed to meet AAMI grade water standards and is ideal for use in the home. This system is portable, compact and easy to operate with a very low noise level and automated procedures, which helps minimize home patient and caregiver involvement. It has programmable automated flushing and a continuous product water loop to eliminate stagnation and ensure system cleanliness. This RO system also offers a heat disinfection option.

Water softener, semi-automatic (7.5K grain)

Product #
Z12258-10

Description
Water softener used to remove minerals such as calcium and magnesium from source water used to generate dialysate.

Concentrates

NaturaLyte® 4000 series acid concentrate

Packaging
4 bottles/case:
1 bottle=3.43 liter or 0.905 gallons

Description
Acetic acid-based hemodialysis liquid concentrate
for appropriate dilution with bicarbonate concentrate and purified water
to yield dialysis solution for treatment. Must be used with a three-stream
hemodialysis machine programmed to 45X proportioning (1 part acid
concentrate: 1.72 part sodium bicarbonate concentrate: 42.28 parts
purified water).

NaturaLyte acid concentrate is available in a range of potassium
(0-4 mEq/L) and calcium (0-3.5 mEq/L) compositions. See the table
below for available dialysis solution compositions after proportioning
(additional sodium contributed to final dialysis solution concentration
from sodium bicarbonate concentrate).

Product #	Na+ mEq/L	K+ mEq/L	Ca++ mEq/L	Mg++ mEq/L	Cl- mEq/L	Acetate mEq/L	Dextrose mg/dL

Concentrates

NaturaLyte liquid bicarbonate concentrate

Product #
08-4000-LB

Packaging
3 bottles/case:
1 bottle=6.4 liter or
1.7 gallons

45x

Description
Sodium bicarbonate concentrate (81.25 g/L) for appropriate dilution with acid concentrate and purified water to yield dialysis solution for treatment. Must be used with a three-stream hemodialysis machine programmed to 45X proportioning (1 part acid concentrate: 1.72 part sodium bicarbonate concentrate: 42.28 parts purified water). Dialysis solution additives after proportioning = sodium 37 mEq/L and bicarbonate 37 mEq/L (before reaction) (additional sodium contributed to final dialysis solution concentration from acid concentrate).

---

bi*b*ag bicarbonate concentrate

Product #
08-4078-BB

Packaging
650 g
16 bags per case

08-4080-BB

900 g
12 bags per case

Description
The bi*b*ag system is used with three-stream proportioning hemodialysis systems equipped with the bi*b*ag module, such as the 2008K@home hemodialysis machine, and is intended for use in bicarbonate hemodialysis for acute and chronic renal failure. The bi*b*ag system is intended for extracorporeal bicarbonate hemodialysis according to a physician's prescription.

HHD Disposables

CombiSet® True Flow HD blood tubing set

Product #
03-2962-3

Packaging
24/case

Description
Non-latex hemodialysis blood tubing set for use with the 2008K@home machine; numbered tabs guide the user through setup procedure. Arterial line includes arterial chamber, pre-attached transducer protector for arterial pressure monitor, heparin line, 8 mm pump segment, and injection/ sampling site. Venous line includes venous chamber, pre-attached transducer protector for venous pressure monitor, and injection/sampling site. Set includes saline administration line and drain bag to collect saline prime during setup. The blood tubing total volume is 134 cc. The arterial priming volume is 78 cc and the venous priming volume is 56 cc.

Normal saline 1000 mL

Product #
060-10109

Packaging
12/box

Description
0.9% sodium chloride solution (1 L) for priming blood tubing set and dialyzer and infusion as needed (sterile).

HHD Disposables

Luer-Lock cap set (end caps)

Product #   **Packaging**
09-0125-0   100/bag

Description
Color-coded Luer-Lock caps (arterial/red and venous/blue) used to maintain sterility of blood line connections in the event of temporary disconnection.

Transducer protector

Product #   **Packaging**
04-9500-2   100/box

Description
Protective filter for dialysis machine pressure monitoring ports; replaces pre-attached transducer protectors if dampened.

Recirculation Connectors

Product #   **Packaging**
04-9502-8   200 ea/case

Description
Sterile, individually-wrapped connector used to attach arterial and venous bloodlines together.

HemaClip Bloodline Connector

Product #   **Packaging**
04-9100-1   400 ea/bag

Description
This optional clip is applied to the access and bloodline connection during a dialysis treatment. It is for use only with CombiSet bloodlines.

HHD Test Strips

Ultra-low total chlorine test strips

Product #
24-0118-0

Packaging
each

Description
RPC ultra-low total chlorine reagent strips
(100 strips) to measure chlorine from 0 to 0.2 mg/L
(parts per million/ppm).

Residual chlorine test strips

Product #
24-2210-1

Packaging
each

Description
Hach SteriChek Sensitive Total Chloramines
and Residual Chlorine reagent strips to measure
chloramines and residual chlorine in feed water
and rinse water from 0 to 1.0 ppm (100 strips).

---

pH control strips

Product #
24-0394-7

Packaging
each

Description
Precision test strips to measure pH within a range 6.0 to 8.0 (100 strips).

HHD Test Strips

Blood leak test strips

Product # | **Packaging**
24-2145-0 | each

Description
Hach SteriChek reagent strips to check for
blood in dialysate fluid (10 strips).

Water hardness test strips

Product # | **Packaging**
24-2146-0 | each

Description
Hach SteriChek Sensitive Low-Range reagent
strips for water hardness (50 strips); measures
hardness as calcium carbonate in grains per
gallon (gpg) in a range of 0-1.2 or mg/L (ppm)
in a range of 0-20.

HHD Conductivity Meters and Supplies

Conductivity meter (final dialysate only)

Product #	Packaging
36-0302-4	each

Description

Myron-L model D-1 conductivity meter used to test
final dialysate; conductivity range 11-15 millimhos; adjustable green tab
indicates desired safe zone for quick visual confirmation; accompanying
cell cup plunger required for operation.

Conductivity meter (bicarb and final dialysate)

Product #	Packaging
36-0311-5	each

Description

Myron-L model D-2 conductivity meter used to
test pre-finalized bicarbonate dialysate (scale range 0-10 millimhos) or
finalized acetate/bicarbonate dialysate (scale range 0-20 millimhos);
range selector (front) allows user to select pre-finalized bicarbonate (10)
or finalized dialysate (20); accompanying plunger required for operation.

TDS meter

Product #	Packaging
36-1083-9	each

Description

Myron-L Model 532 T2 measures total dissolved
solids (TDS) in feed water; range selector (front) allows user to choose
10-100-1000 x 2.5 for TDS ranging from 0-25, 0-250, or 0-2500 ppm.

HHD Conductivity Meters and Supplies

12.5 conductivity standard solution

Product #   **Packaging**
24-0426-7   each

Description
Myron-L standard solution for conductivity meter calibration to 12.5 millimhos reading (32 oz. bottle).

14.0 conductivity standard solution

Product #   **Packaging**
24-1014-0   each

Description
Myron-L standard solution for conductivity meter calibration to 14.0 millimhos reading (32 oz. bottle).

---

pHoenix meter with calibration kit

Product #   **Packaging**
36-0602-7   each

Description
pHoenix conductivity, pH, and temperature meter; accurate conductivity measurements for final dialysate or concentrate; package includes conductivity and pH calibration solutions, NEO-CARE cleaning solution, and one spare control syringe.

Calibration kit for pHoenix meter (no meter)

Product #   **Packaging**
36-0614-2   each

Description
Conductivity and pH calibration solutions, NEO-CARE cleaning solution, calibration labels, cleaning syringe, and one spare control syringe.

Syringes and Needles for Home Dialysis

3 cc Luer-Lock syringe

Product #	Packaging
15-9657-0	200/box

BD 10 cc syringe

Product #	Packaging
15-9604-8	100/box

BD 30 cc syringe

Product #	Packaging
15-3096-3	40/box

BD 60 cc syringe

Product #	Packaging
15-3096-5	40/box

1 cc insulin syringe with 25 g x 1" detachable needle

Product #	Packaging
15-9622-0	100/box

1 cc tuberculin syringe with 27 g x ½" needle, slip tip

Product #	Packaging
15-9623-8	100/box

1 cc tuberculin syringe with 25 g x ⅝" safety needle

Product #	Packaging
15-9667-1	100/box

Syringes and Needles for Home Dialysis

1.5 cc syringe with 22 g x ½" safety needle

Product #	Packaging
15-0525-5	100/box

3 cc Luer-Lock syringe with 20 g x 1" needle

Product #	Packaging
15-9578-4	100/box

3 cc Safety-Lock syringe with 22 g x 1" needle

Product #	Packaging
15-9596-6	100/box

10 cc Luer-Lock syringe with 20 g x 1" detachable needle

Product #	Packaging
15-9644-4	100/box

BD 22 g x 1½" SafetyGlide needle

Product #	Packaging
15-3590-0	50/box

BD 21 g x 1" needle

Product #	Packaging
15-5165-4	100/box

BD 18 g x 1½" needle

Product #	Packaging
15-5196-9	100/box

Medications for Home Dialysis

Lidocaine 1% (10 mg/mL) 50 mL vial

Product #   **Packaging**

25-0600-4   each

Heparin (porcine) 1000 u/mL 30 mL vial

Product #   **Packaging**

21-5403-1   each

Heparin (porcine) 5000 u/mL 10 mL vial

Product #   **Packaging**

21-4710-0   each

Disposable Medical Supplies for Home Dialysis

Sterile gauze (4"x4",4 ply)

Product #	Packaging
16-1444-0	100/box

Sterile gauze (4"x4"x,8 ply)

Product #	Packaging
16-1448-0	100/box

Sterile gauze (2"x2",4 ply)

Product #	Packaging
16-2122-4	100/box

Non-sterile gauze (2"x2"x,4 ply)

Product #	Packaging
16-2101-0	200/box

Sterile adhesive bandage (1"x3")

Product #	Packaging
16-2560-0	100/box

Alcohol prep pads XL

Product #	Packaging
23-0253-8	100/box

ExSept plus 100 ml

Product #	Packaging
23-2501-0	1/box

ExSept plus 500 ml

Product #	Packaging
23-1511-7	1/box

Disposable Medical Supplies for Home Dialysis

Alcavis 500 ml

Product #	Packaging
23-1501-8	1/box

Non-sterile nitrile gloves/powder-free small

Product #	Packaging
10-6800-1/10-TN202-0	200/box

Non-sterile nitrile gloves/powder-free medium

Product #	Packaging
10-6800-1/10-TN203-0	200/box

Non-sterile nitrile gloves/powder-free large

Product #	Packaging
10-6800-2/10-TN204-0	200/box

Non-sterile vinyl gloves/powder-free small

Product #	Packaging
10-2074-0	100/box

Non-sterile vinyl gloves/powder-free medium

Product #	Packaging
10-2075-0	100/box

Non-sterile vinyl gloves/powder-free large

Product #	Packaging
10-2076-0	100/box

Underpads 12"x17" 3-ply

Product #	Packaging
16-1217-6	500/case

Disposable Medical Supplies for Home Dialysis

Cloth tape 1"

Product #   **Packaging**

16-0101-0   12/box

Plastic tape 1" (internal only)

Product #   **Packaging**

16-1527-7   12/box

Paper tape 1"

Product #   **Packaging**

16-5321-0   12/box

Silk tape 1" (internal only)

Product #   **Packaging**

16-3616-6   12/box

Washcloths 13½" x 10"

Product #   **Packaging**

17-0907-1   500/box

Face masks with ear loop

Product #   **Packaging**

16-2117-0   50/box

Hydrogen peroxide 16 oz.

Product #   **Packaging**

23-0176-0   1/box

Antibacterial liquid soap 16 oz.

Product #   **Packaging**

23-8046-9   1/box

Disposable Medical Supplies for Home Dialysis

White vinegar 5% acidity 1 gallon

Product #	Packaging
23-0527-3	4/case

Pure bright disinfectant bleach 1 gallon

Product #	Packaging
28-1335-8	4/case

Sharps container 2 gallons

Product #	Packaging
35-8704-0	1/each

Sharps container 3 gallons

Product #	Packaging
35-9710-0	1/each

Sharps container 8 gallons

Product #	Packaging
35-8981-9	1/each

Permanent Medical Supplies for Home Dialysis

IV pole with 5 legs/4 hooks

Product #	Packaging
36-8335-0	each

Heating pad 12" x 24"

Product #	Packaging
31-HP118-0	each

Digital thermometer

Product #	Packaging
31-1759-5	each

Digital blood pressure monitor with small cuff (7.5"-12.2")

Product #	Packaging
31-2767-0	each

Digital blood pressure monitor with medium cuff (8.6"-16.5")

Product #	Packaging
31-0767-1	each

Digital floor scale 397 lb/180 kg capacity

Product #	Packaging
36-7608-0	each

Large dial floor scale 330 lb/150 kg capacity

Product #	Packaging
36-0142-0	each

Permanent Medical Supplies for Home Dialysis

	Product #
Champion chair (recliner)	99-5400-9
